

# BENEFITS OF ENROLLING IN YOUR **KPERS 457 PLAN**

Saving through the optional KPERS 457 (deferred compensation) Plan is a simple way to help supplement your KPERS and Social Security benefits. It can help you bridge the gap between your financial goals and your destination in retirement.

It's important to plan for your future — but you don't have to do it alone. You have a trusted companion in KPERS 457. We'll be with you every step of the way.

## Good company

There are more than 25,000 participating employees, so together you have mass purchasing power. This means that costs might be less here than in other investing opportunities.

## Traditional pretax or Roth after-tax contributions

You can choose to pay taxes on your contributions now or when you take money out or both. Consider the amount of taxes you might be paying in retirement.

## State employees

You have the flexibility to designate all or part of your deferrals as Roth after-tax contributions.

## Local employees

Check with your employer to see if the Roth option is available.

## A chance to catch up

If you're at least age 50 or three years from normal retirement age, you may be able to make extra contributions.

## Investment options

Your KPERS 457 offers a range of professionally screened investment options. If you're seeking an even wider array of investments, you may consider adding the optional self-directed brokerage account, which is intended only for knowledgeable investors who understand the risks and costs of those non-screened investments.

## Online Advice

If you would like help managing your account, KPERS 457 offers Online Advice, provided by Advised Assets Group, LLC, a registered investment adviser. This service is designed to help you choose specific investments based on your personal goals and financial situation — at no additional cost to you. There is no guarantee provided by any party that participation in any of the advisory services will result in a profit.

## No early withdrawal penalty

The 10% early withdrawal penalty that applies to 401(k) plans and IRAs generally does not apply to distributions from your KPERS 457 account.<sup>1</sup>
